## **Training Parameters**

Sector	Electronics
Sub-Sector	Semiconductor Components
Occupation	Production-S&C
Country	India
NSQF Level	5
Aligned to NCO/ISCO/ISIC Code	NCO-2015/7223.2800
Minimum Educational Qualification and Experience	Diploma (After 10 (Electronics/Mechanical)) with 1 Year of experience Relevant Experience OR 12th grade pass with 1 year NTC/ NAC with 1 Year of experience Relevant Experience OR 12th grade Pass with 2 Years of experience Relevant Experience OR Previous relevant Qualification of NSQF Level (4) with 3 Years of experience Relevant Experience OR 10th grade pass with 4 Years of experience Relevant Experience
Pre-Requisite License or Training	NA
Minimum Job Entry Age	18 Years
Last Reviewed On	31.03.2022
Next Review Date	31.03.2025
NSQC Approval Date	31.03.2022
QP Version	2.0
Model Curriculum Creation Date	31.03.2022
Model Curriculum Valid Up to Date	31.03.2025
Model Curriculum Version	2.0
Maximum Duration of the Course	780 Hours

## **Program Overview**

This section summarizes the end objectives of the program along with its duration.

#### **Training Outcomes**

At the end of the program, the learner should have acquired the listed knowledge and skills:

- Describe the process of Semiconductor Manufacturing, Assembly, Testing & Packaging evaluating customer requirements and computer issues.
- Demonstrate the evaluation process of customer requirements and semiconductors processing.
- Demonstrate the uses of all standards related to Wafer Back Grinding Process
- Demonstrate the process of Implementation of all Wafer Back Grinding Machine Handling and **Processes**
- Demonstrate various practices to be followed to maintain health and safety at work.

#### **Compulsory Modules**

The table lists the modules and their duration corresponding to the Compulsory NOS of the QP.

NOS and Module Details	Theory Duration	Practical Duration	On-the-Job Training Duration (Mandatory)	On-the-Job Training Duration (Recommended)	Total Duration
Bridge Module	21:00	39:00	00:00	00:00	60:00
Module 1: Introduction	21:00	39:00	00:00	00:00	60:00
ELE/N0132 Program Readiness	30:00 60:00 ELE/N0132 Program		30:00	00:00	120:00
Module 2: Program Readiness	30:00	60:00	30:00	00:00	120:00
ELE/N0137 Cost and Productivity Improvement	30:00 60	60:00	60:00	00:00	150:00
Module 3: Cost and Productivity Improvement	30:00	60:00	60:00	00:00	150:00
ELE/N0138 Back Grinding Design and Verification	60:00	60:00	60:00	00:00	180:00
Module 4: Back Grinding Design and Verification	60:00	60:00	60:00	00:00	180:00
ELE/N0139 Supply Chain of Machines/Tools	60:00	60:00	60:00	00:00	180:00

Module 5: Supply Chain of Machines/Tools	60:00	60:00	60:00	00:00	180:00
ELE/N1002 Apply Health and Safety Practices at Workplace	15:00	15:00	00:00	00:00	30:00
Module 6: Apply health and Safety Practices at Workplace	15:00	15:00	00:00	00:00	30:00
DGT/VSQ/N0102- Employability Skills (60 Hours)	24:00	36:00	00:00	00:00	60:00
Module 7: Employability Skills (60 Hours)	24:00	36:00	00:00	00:00	60:00
<b>Total Duration</b>	240:00	330:00	210:00	00:00	780:00

## **Module Details**

### **Module 1: Introduction Bridge Module**

#### **Terminal Outcomes:**

• State the role and responsibilities of a Program Readiness

Duration: 21:00	Duration: 39:00
Theory – Key Learning Outcomes	Practical – Key Learning Outcomes
<ul> <li>Describe the size and scope of the electronics industry and its sub-sectors</li> <li>Discuss the role and responsibilities of a Wafer Back Grinding Engineer</li> <li>Describe various employment opportunities for Wafer Back Grinding Engineer</li> </ul>	<ul> <li>Knowledge of the Wafer Back Grinding processes</li> <li>Knowledge of the faults and troubleshooting in the Wafer Back processes</li> <li>Understanding of the other processes and mechanism involved with the Wafer Grinding system</li> <li>Understanding of the output of the Wafer Back Grinding to the Wafer Dicing Process</li> </ul>
Classroom Aids	
Training Kit - Trainer guide, Presentations, White	board, Marker, projector, laptop
Tools, Equipment and Other Requirements	
Wafer Back Grinding Attach Tools	

### **Module 2: Program Readiness** Mapped to ELE/N0132

#### **Terminal Outcomes:**

• State the role and responsibilities of a Program Readiness

Duration: 30:00	Duration: 60:00
Theory – Key Learning Outcomes	Practical – Key Learning Outcomes
<ul> <li>Understand the wafer Structure</li> <li>Understand the Die Dimensions, Wafer Scrub Line's width, Internal Material Structure and thickness &amp; Wafer Thickness</li> <li>Define Grinding Wheel types &amp; size etc</li> <li>Set up all process parameters such as speed, Grinding Thickness, height, fiducial marks, orientation, vacuum level, Water Flow etc</li> <li>Run dummies/Blanket Wafers, do all measurements, Calculate CPK, PPK &amp; other quality parameters</li> </ul>	<ul> <li>Regular inspection of lot data such as yield, failure etc</li> <li>Prepare Process flow with clear specifications like Temp., Speed, Water Flow, Vaccume, Grinding Direction, Roughness, Grinding Material Type etc.</li> <li>Prepare travelling card with defined process or program name/code</li> <li>Make changes as per Wafer specification requirement</li> </ul>
Classroom Aids	
Training Kit - Trainer guide, Presentations, White	eboard, Marker, projector, laptop

### **Tools, Equipment and Other Requirements**

Wafer Back Grinding Attach Tools

### **Module 3: Cost and Productivity Improvement** Mapped to ELE/N0137

#### **Terminal Outcomes:**

- Describe the process of standard implementations for cost and productivity improvement
- Demonstrate the process of verification all Parameters

Duration: 30:00	Duration: 60:00		
Theory – Key Learning Outcomes	Practical – Key Learning Outcomes		
<ul> <li>Define all wafer Dimension tolerance, wafer edge Chiping Size, wafer thickness &amp; roughness, Keep out zone area, wafer warpage etc</li> <li>Define sample size for each lot to measure all dimensions</li> <li>Any failure at Wafer Grinding should be passed through failure analysis</li> <li>Should be able to prepare 8D report</li> <li>Production Yield data collection for each Wafer Lot</li> <li>Broad Material knowledge to reduce cost</li> <li>Knowledge of running statistical tools such as JMP</li> </ul>	<ul> <li>Design of Experiments (DOE) Expertise</li> <li>List down/record all failures along with actions to avoid future failure</li> <li>Train Operators on SOP Flow</li> <li>Knowledge of doing some manual testing</li> <li>Good understanding of Auto CAD generated designs</li> <li>Define short term and long-term actions of failures to reduce failure rate</li> <li>Find root cause of each failure</li> </ul>		
Classroom Aids			

Training kit (Trainer guide, Presentations). Whiteboard, Marker, projector, laptop

#### **Tools, Equipment and Other Requirements**

Data Analysis Standard's and Procedure's

### **Module 4: Back Grinding Design and Verification** Mapped to ELE/N0138

- Describe the process of Design Creation and Verification.
- Demonstrate the process of Verification
- Demonstrate the process of cost and Productivity Improvement

Duration: 60:00	Duration: 60:00
Theory – Key Learning Outcomes	Practical – Key Learning Outcomes
<ul> <li>Auto CAD or equivalent design tool knowledge</li> <li>Knowledge of JEDEC Standard</li> <li>Knowledge of Semiconductor Material Used in Wafer Fabrication</li> <li>Knowledge of wafer fabrication process</li> <li>Understanding of Critical and Normal dimensions Requirements that meet customer's final product specification</li> <li>Responsibility of Verifying tray drawing</li> <li>Responsibility of Verifying scrub/street width profile</li> <li>Responsibility of Verifying package drawing for solder ball</li> </ul>	<ul> <li>Participate in substrate drawing activities for Solder ball dimensions</li> <li>How to read customer POD, SOD, Wafer Mapping etc</li> <li>Selection of stencil as per Strip outline drawing &amp; Material</li> <li>Responsibility of Verifying package drawing for solder ball</li> <li>Support Design team to create an Optimized Product</li> </ul>
Classroom Aids	
Training kit (Trainer guide, Presentations). White	eboard, Marker, projector, laptop

#### **Tools, Equipment and Other Requirements**

Design Creation and Verification Software's

### **Module 5: Supply Chain of Machines and Tools** Mapped to ELE/N0139

#### **Terminal Outcomes:**

- Knowledge about all tools and equipment's useful Which are required for The Wafer Back Grinding
- Knowledge about all tools and equipment's useful for Wafer Back Grinding and to implement **Quality Standards**

Duration: 60:00	Duration: 60:00
Theory – Key Learning Outcomes	Practical – Key Learning Outcomes
<ul> <li>List of Machines &amp; Tools required for process of Wafer Back Grinding</li> <li>FAT Report Creation</li> <li>Awareness on general Machine Specification like Operation, Controller, Panel etc</li> <li>Knowledge of characterization phase, feasibility phase, customer samples phase and qualification phase is must</li> <li>Collection of all the quality and realibity data for each characterization, feasibility and qualification build</li> </ul>	<ul> <li>Demonstrate the generation of PCN</li> <li>Process of preparation of Solid Reports</li> <li>Description on All equipment consumables specifications, dimensions and other parameters should be clearly defined by process and equipment engineer</li> <li>General Machine Specification (Operation, Main Controller, Main Panel should function as per requirements given to manufacturer)</li> </ul>
Classroom Aids	
Training kit (Trainer guide, Presentations)	
Tools, Equipment and Other Requirements	
Equipment's related to Wafer Back Grinding	

### Module 6: Apply work and health safety practices Mapped to ELE/N1002

#### **Terminal Outcomes:**

Apply health and safety practices at the workplace.

Duration: 15:00 Duration: 15:00			
Theory – Key Learning Outcomes	Practical – Key Learning Outcomes		
<ul> <li>Discuss job-site hazards, risks and accidents.</li> <li>Explain the organizational safety procedures for maintaining electrical safety, handling tools and hazardous materials.</li> <li>Elaborate the electronic waste disposal procedures.</li> <li>Describe the process of disposal of hazardous waste</li> <li>List the name and location of concerned people, documents and equipment for maintaining health and safety in the workplace.</li> <li>Describe how to interpret warning signs while accessing sensitive work areas.</li> <li>Explain the importance of good housekeeping.</li> <li>Describe the importance of maintaining appropriate postures while lifting heavy objects.</li> <li>List the types of fire and fire extinguishers.</li> <li>Explain the importance of efficient utilisation of water, electricity and other resources.</li> <li>List the common sources of pollution and ways to minimize it.</li> <li>Describe the concept of waste management and methods of disposing hazardous waste.</li> <li>Explain various warning and safety signs.</li> <li>Describe different ways of preventing accidents at the workplace.</li> </ul>	<ul> <li>Demonstrate the use of protective equipment suitable as per tasks and work conditions.</li> <li>Report any abnormal situation/behaviour of any equipment/system to the relevant authorities.</li> <li>Administer first aid in case of a minor accident.</li> <li>Demonstrate the steps to free a person from electrocution safely.</li> <li>Administer Cardiopulmonary Resuscitation (CPR).</li> <li>Demonstrate the application of defined emergency procedures such as raising alarm, safe/efficient, evacuation, moving injured people, etc.</li> <li>Prepare a sample incident report.</li> <li>Use a fire extinguisher in case of a fire incident.</li> <li>Demonstrate the correct method of lifting and handling heavy objects.</li> </ul>		

Training kit (Trainer guide, Presentations)

### **Tools, Equipment and Other Requirements**

Personal Protection Equipment: safety glasses, head protection, rubber gloves, safety footwear, warning signs and tapes, fire extinguisher, first aid kit, fire extinguishers and warning signs.

### Module 7: Employability Skills (60 Hours) Mapped to DGT/VSQ/N0102

#### **Terminal Outcomes:**

- Discuss about Employability Skills in meeting the job requirements
- Describe opportunities as an entrepreneur.
- Describe ways of preparing for apprenticeship & Jobs appropriately.

Duration: 24:00	Duration: 36:00
Theory – Key Learning Outcomes	Practical – Key Learning Outcomes
<ul> <li>Explain constitutional values, civic rights, responsibility towards society to become a responsible citizen</li> </ul>	<ul> <li>List different learning and employability related GOI and private portals and their usage</li> </ul>
<ul> <li>Discuss 21<sup>st</sup> century skills</li> <li>Explain use of basic English phrases and sentences.</li> </ul>	<ul> <li>Show how to practice different environmentally sustainable practices.</li> </ul>
<ul> <li>Demonstrate how to communicate in a well-behaved manner</li> </ul>	<ul> <li>Exhibit 21st century skills like Self- Awareness, Behavior Skills, time management, etc.</li> </ul>
<ul> <li>Demonstrate how to work with others</li> </ul>	Show how to use basic English sentences for everyday conversation
<ul> <li>Demonstrate how to operate digital devices</li> </ul>	<ul> <li>in different contexts, in person and over the telephone</li> <li>Demonstrate how to communicate in</li> </ul>
<ul> <li>Discuss the significance of Internet and Computer/ Laptops</li> </ul>	a well -mannered way with others.
<ul> <li>Discuss the need for identifying business opportunities</li> </ul>	Demonstrate how to communicate effectively using verbal and nonverbal
<ul> <li>Discuss about types of customers.</li> </ul>	<ul><li>communication etiquette</li><li>Utilize virtual collaboration tools to</li></ul>
Discuss on creation of biodata	workeffectively
<ul> <li>Discuss about apprenticeship and opportunities related to it.</li> </ul>	<ul> <li>Demonstrate how to maintain hygiene and dressing appropriately.</li> </ul>
	Perform a mock interview
Classroom Aids	

Training Kit (Trainer Guide, Presentations). Whiteboard, Marker, Projector, Laptop

#### **Tools, Equipment and Other Requirements**

Computer, UPS, Scanner, Computer Tables, LCD Projector, Computer Chairs, White Board

OR

Computer Lab

### **Module 8: On-the-Job Training** Mapped to Wafer Back Grinding Engineer

**Mandatory Duration: 210:00 Recommended Duration: 00:00** 

**Location: On Site** 

#### **Terminal Outcomes**

- 1. Explain the functions of a Wafer Back Grinding in Semiconductors.
- 2. List the preliminary tasks involved in the repair and maintenance of a Tools and Equipment's
- 3. Demonstrate how to perform preliminary checks on a Wafer Back Grinding.
- 4. Perform steps to inspect the computer and its peripherals to identify defective modules/ components.
- 5. Perform repair and maintenance activities as per the Service Level Agreement (SLA).
- 6. Perform steps to test the functioning of Wafer Back Grinding.
- 7. Communicate product and service-related information to the customer.
- 8. Employ appropriate practices to interact and coordinate with supervisor and colleagues.
- 9. Perform assigned work within the turnaround time and as per the defined quality standards.
- 10. Demonstrate how to maintain a healthy, safe and secure working environment.

### **Annexure**

### **Trainer Requirements**

Trainer Prerequisites						
Minimum Specialization Educational	Relevant Industry Experience		Training Experience		Remarks	
Qualification		Years	Specialization	Years	Specialization	
Diploma/ Degree/ ITI/ Certified in relevant CITS Trade	(Electrical/Electronics/ Mechanical)	2	Assembly & Packaging	1	Electronics	

Trainer Certification				
Domain Certification	Platform Certification			
"Wafer Back Grinding Engineer, ELE/Q0125, version 2.0". Minimum accepted score is 80%.	Recommended that the Trainer is certified for the <b>Wafer Back Grinding Engineer</b> "Trainer (VET and Skills)", mapped to the Qualification Pack: "MEP/Q2601, V2.0", with minimum score of 80%			

### **Assessor Requirements**

Assessor Prerequisites						
Minimum Educational Qualification	Specialization	Relevant Industry Experience		Training/Assessment Experience		Remarks
		Years	Specialization	Years	Specialization	
Diploma/ Degree/ ITI/ Certified in relevant CITS Trade	(Electrical/Electronics/ Mechanical)	3	Assembly & Packaging	1	Electronics	

Assessor Certification				
Domain Certification	Platform Certification			
"Wafer Back Grinding Engineer, ELE/Q0125, version 2.0". Minimum accepted score is 80%.	Recommended that the Assessor is certified for the <b>Wafer Back Grinding Engineer</b> "Assessor (VET and Skills)", mapped to the Qualification Pack: "MEP/Q2701, V2.0", with minimum score of 80%			

#### **Assessment Strategy**

- 1. Assessment System Overview:
  - Batches assigned to the assessment agencies for conducting the assessment on SDMS/SIP or email
  - Assessment agencies send the assessment confirmation to VTP/TC looping SSC
  - The assessment agency deploys the ToA certified Assessor for executing the assessment
  - SSC monitors the assessment process & records
- 2. Testing Environment

To ensure a conducive environment for conducting a test, the trainer will:

- Confirm that the centre is available at the same address as mentioned on SDMS or SIP
- Check the duration of the training.
- Check the Assessment Start and End time to be 10 a.m. and 5 p.m. respectively
- Ensure there are 2 Assessors if the batch size is more than 30.
- Check that the allotted time to the candidates to complete Theory & Practical Assessment is correct.
- Check the mode of assessment—Online (TAB/Computer) or Offline (OMR/PP).
- Confirm the number of TABs on the ground are correct to execute the Assessment smoothly.
- Check the availability of the Lab Equipment for the particular Job Role.
- 3. Assessment Quality Assurance levels / Framework:
  - Question papers created by the Subject Matter Experts (SME)
  - Question papers created by the SME verified by the other subject Matter Experts
  - Questions are mapped with NOS and PC
  - Question papers are prepared considering that level 1 to 3 are for the unskilled & semiskilled individuals, and level 4 and above are for the skilled, supervisor & higher management
  - The assessor must be ToA certified and the trainer must be ToT Certified
  - The assessment agency must follow the assessment guidelines to conduct the assessment
- 4. Types of evidence or evidence-gathering protocol:
  - Time-stamped & geotagged reporting of the assessor from assessment location
  - Centre photographs with signboards and scheme-specific branding
  - Biometric or manual attendance sheet (stamped by TP) of the trainees during the training period
  - Time-stamped & geotagged assessment (Theory + Viva + Practical) photographs & videos
- 5. Method of verification or validation:

To verify the details submitted by the training centre, the assessor will undertake:

- A surprise visit to the assessment location
- A random audit of the batch
- A random audit of any candidate
- 6. Method for assessment documentation, archiving, and access

To protect the assessment papers and information, the assessor will ensure:

- Hard copies of the documents are stored
- Soft copies of the documents & photographs of the assessment are uploaded / accessed

Soft copies of the documents & photographs of the assessment are stored on the Hard drive

### Glossary

Term	Description
Declarative knowledge	Declarative knowledge refers to facts, concepts and principles that need to be known and/or understood in order to accomplish a task or to solve a problem.
Key Learning	Key learning outcome is the statement of what a learner needs to know, understand and be able to do in order to achieve the terminal outcomes. A set of key learning outcomes will make up the training outcomes. Training outcome is specified in terms of knowledge, understanding (theory) and skills (practical application).
OJT (M)	On-the-job training (Mandatory); trainees are mandated to complete specified hours of training on site
OJT (R)	On-the-job training (Recommended); trainees are recommended the specified hours of training on site
Procedural Knowledge	Procedural knowledge addresses how to do something, or how to perform a
Training Outcome	Training outcome is a statement of what a learner will know, understand and be able to do <b>upon the completion of the training</b> .
Terminal Outcome	Terminal outcome is a statement of what a learner will know, understand and be able to do <b>upon the completion of a module.</b> A set of terminal outcomes help to achieve the training outcome.
